

# AMSHINE PERGOLA™

## AMSHINE PERGOLA™ FOR THE BEST OF YOUR WEATHER

Control your outdoor living weather with the innovative Amshine pergola. Its electronically controlled louvres can be opened and closed to your desired position. Let the breeze and sunlight in when the weather is fine, and provide protection when the clouds set in. By adjusting the rotating louvres with the hand held remote, you can easily control the level of sunlight, shade and weather shielding. The system has an inbuilt rain sensor that will automatically close the blades if rain is detected. When the louvres are completely shut they form a beautiful ceiling-like interlocking profile that protects you from the weather.

*Bring your dream of outdoor living to life.*
